

Our Mission Statement

“Making sure our clients are cared for with DIGNITY and RESPECT is our TOP PRIORITY. It is our mission to deliver quality home nursing care to ensure SAFE and INDEPENDENT living at home for your loved one for as long as possible. We also provide temporary staffing for long term care and assisted living facilities as well as community-based service organizations. We’re here for you and your loved ones every step of the way.”

Creative Solutions In Home Health

Creative Solutions In Home Health is a 100% Veteran-Owned, business with over 20 years of experience in the healthcare setting. Our goal is to deliver professional, ethical, compassionate and quality care to all of our clients.

All of our caregivers are certified and medically trained to ensure that we meet our high standards of care. In addition, all of our staff is bonded, insured and vetted through a comprehensive background screening process.

Our rates are competitive and budget-friendly and we offer a variety of payment options.

Services We Provide

Certified Nursing Assistant

Provides care and assist persons with tasks relating to the activities of daily living.

Nurse (Registered Nurse (RN) or Licensed Practical Nurse (LPN))

Administration of treatments and medications and the promotion of wellness, maintenance of health, and prevention of illness.

Personal Care Assistant

The services provided by a personal care assistant are considered non-medical services. The services provided include but are not limited to feeding, meal preparation, help with bathing, dressing, shaving, scheduling appointments, assistance at work or school for lavatory needs and meals.

Speech-Language Pathologist

Provide diagnosis and treatment for disorders of the auditory and vestibular system portions of the ear.

SPEECH AND LANGUAGE THERAPY

Our Speech and language therapists (SLTs) provide life-improving treatment, support and care for children and adults who have difficulties with communication, eating, drinking or swallowing.

Our SLTs assess and treat speech, language and communication problems in people of all ages to help them communicate better. They also assess, treat and develop personalized plans to support people who have eating and swallowing problems.

Using specialist skills, our SLTs work directly with clients and their careers and provide them with tailored support. They also work closely with teachers and other health professionals, such as doctors, nurses, other allied health professionals and psychologists to develop individual treatment programs.
